

Women's Health

Getting expert medical advice just got easier

Fast access to high quality care

Summus is committed to empowering women with the information they need to lead healthier, happier lives. To do this, Summus puts women's health at the forefront by providing fast access to the nation's leading doctors for personalized expert medical advice.

How it works

1. From the Summus platform, select "I have a question or concern about women's health."
2. Submit your health question or concern.
3. Get connected with a board-certified Summus MD to help you and your family make informed healthcare decisions.

Some questions members ask:

- ▶ Should I worry if I have breast pain?
- ▶ We've been having trouble conceiving, what are our options?
- ▶ My teen is considering hormone therapy, can you help me learn more?
- ▶ I have had a low sex drive since starting menopause, what can I do?
- ▶ Surgery was recommended for my endometriosis. Is that the right option?

Have a question?
Ask us. It's easy!
